Dear Parents:

The District has the resources in place to provide students with Internet access from both the classrooms and the libraries. Access to the school district computer system and to the Internet enables students to explore thousands of libraries, databases, bulletin boards and other resources. Although the District has put filters in place to prevent access to inappropriate material, such filters can never be foolproof.

Attached is a list of the privileges and responsibilities of the Internet user. In order for your child to have access to the Internet, both you and your child must sign this letter acknowledging that you have read and agree to the terms of this document. Please return this signed letter by **Friday, September 16, 2011**. If you have any questions about the District's Internet Policy, please contact your child's building principal or the District Office. This letter will remain in effect until you contact the school, in writing, to change your child's access to the Internet. For elementary students, please return this letter to your child's classroom teacher; for middle school students, please return to the advisor; and for high school students, please return to the house group teacher.

Sincerely,

Steven R. Cohen, Ph.D.  
Superintendent of Schools
