Helping Your Child With Homework

Dear Parents/Guardians,

The online homework for students is a great way to reinforce what they learn in class. It is important to make sure that your child is completing their homework on time and is making progress. If you have any questions or concerns, please feel free to contact your child's teacher.

Sincerely,
[Signature]

NEXUS Thanksgiving Food Drive

Each year the faculty and students of the school look forward to the annual Nexus Thanksgiving Food Drive. This year was no exception.

Volunteers from the community and Nexus students spent the day gathering and sorting food items that will be distributed to local food banks and shelters. The event was a success, with over 3,000 pounds of food collected.

Artists Share Holiday Gifts

On December 1st, Nexus hosted a holiday art show featuring works by local artists. The event was open to the public and attracted a large crowd.

The artwork on display included paintings, sculptures, and photographs, all of which were donated by the artists.

Batting the Bug

The Nexus science club held its annual bug-killing event on November 10th. Students were challenged to kill as many bugs as possible in 10 minutes.

The event was a fun and educational way for students to learn about insects and their impact on the environment.

Coffee House 1984

The Nexus coffee house was held on November 15th. The event featured live music, poetry readings, and a open mic night for students to showcase their talents.

The theme of the night was "1984," and guests were encouraged to dress up in costumes related to the book or the year.

Shoremham-Wading River High School

The Nexus art team recently competed in the county-wide art competition and won first place. The team was led by their art teacher, Ms. Thompson.

The competition was judged by local artists and art educators, and the Nexus team received high praise for their creativity and technical skills.
Parent Liaison Committee

Please note the following:

- In the October 1995 issue, there was an error in the letter from the Community Committee. The correct letter is as follows:

  Dear Parents and Community Members,

  The Community Committee would like to inform you of the following:

  1. The school will be open on October 31st.
  2. Please make sure your children bring their spelling books to school.
  3. The after-school program will start on November 1st.

Please call (555) 123-4567 for more information.

Sincerely,

[Signature]

Integrating Biometric Curricula into the Elementary Classroom

The integration of biometric curricula into the elementary classroom is a complex and challenging task. It requires careful planning, preparation, and implementation to ensure that the curricula are effective and engaging for the students. At Biarritz Elementary School, the biometric curricula is integrated into the classroom in a way that is both educational and entertaining. The students are encouraged to use their biometric data to solve problems and puzzles, and they are rewarded for their efforts. This approach has been successful in engaging the students and motivating them to learn more about biometrics. Overall, the biometric curricula is an important part of the elementary classroom and is helping to prepare the students for the future.
