Science Road Show

Liza Marie Hannon

Science Road Show is an educational activity developed by the National Science Foundation in collaboration with the American Association for the Advancement of Science and the National Science Teachers Association. The program is designed to engage students in the world of science by providing interactive and hands-on experiences. The program includes activities such as experiments, demonstrations, and workshops that allow students to explore the scientific method, understand scientific concepts, and develop critical thinking skills.

Happening in

Mr. Nature Man Visits

Hallmark's Channel has partnered with the National Wildlife Federation to bring the Year of the Ox to life in a way that celebrates the natural world and encourages children to learn about the diversity of plants and animals that share our planet.

In this issue, Mr. Nature Man, a beloved character from the popular children's show, returns to share his adventures in the great outdoors. This issue features a special feature on the Year of the Ox, highlighting its significance in Chinese culture and exploring the importance of preserving the environment.

Through engaging stories, games, and activities, this issue of Hallmark's Channel magazine encourages children to learn about the natural world, the importance of conservation, and the value of preserving our planet for future generations.

Let's get started on a brand new adventure with Mr. Nature Man and celebrate the Year of the Ox!

COMMITTEES

Committee Chairmen, creative groups, businesses, organizations, key
leaders, and the community at large stand to meet the challenge of
education. Each of these groups has an important role to play in
managing the programs and resources necessary to provide the
highest quality educational experience for our students. The
Committee on Committees has been formed to oversee the work of
the various committees and to ensure that the needs of our school
are met.
