Education
Through Nexus
College Course Offered

By the end of the school year, many students will be looking for ways to fulfill their graduation requirements.

One option is to take college courses through Nexus, a program that offers a variety of courses for high school students.

Nexus is a program offered by the Clark County School District and is designed to provide high school students with the opportunity to take college courses.

Nexus courses are taught by college faculty and are equivalent to college courses.

Nexus courses are offered in a variety of subjects, including mathematics, science, English, and social studies.

Students who take Nexus courses can earn college credit, which can be counted towards their high school diploma or transferred to a college.

Nexus courses are taught in a small class setting, which allows for more personalized instruction.

Students who take Nexus courses are assigned a college advisor who can help them with course selection and academic planning.

Nexus courses are offered at a variety of locations, including on-campus and online.

Nexus courses are available on a first-come, first-served basis, so students are encouraged to enroll early.

Students interested in taking Nexus courses should speak with their high school counselor or visit the Nexus website for more information.

Nexus courses are a great opportunity for high school students to get a head start on their college education.

For more information, visit the Nexus website at www.clarkcountyschools.org/nexus.
