HOW TO BUILD A PATHWAY

1. Clear the area of any obstructions and debris. Mark the pathway design with spray paint or string.
2. Dig a shallow trench along the marked path, using a shovel or a rented power digger.
3. Pour a layer of crushed stone or gravel into the trench, then spread it evenly.
4. Lay landscape fabric over the stone layer to prevent weed growth.
5. Place and compact the topsoil or sodding along the path, using a tamper or a rented compactor.
6. Water the newly installed topsoil or sodding thoroughly.

ESSENTIALS TO COMPLETE THIS PROJECT:
- Spraying paint or string
- Shovel or power digger
- Crushed stone or gravel
- Landscape fabric
- Topsoil or sodding
- Tamper or compactor
- Watering equipment

Get project supplies from your local home improvement store.
